

WTC2020 TECHNICAL PAPER

No.	Submission No.	Authors	Title	Country	Topic
1	6	Harvinder Rana, Alvaro Casaus, Leonid S. Troitski and Eshita Mishra	Kolkata EW Metro – Removal of Abandoned H-Piles Using NATM in Soft Ground to Facilitate the TBM Operations in Package UG02	India	15
2	8	Helen Baxter-Crawford, Ceinwen J. Mackay, Kimberley Saffian and Trevor G. Carter	Modelling the Palaeotopography of Bedrock Hidden by Urban Development	Australia	5
3	11	Karin B�pppler, Michael Str�sser and Fr�d�ric Battistoni	Advantages of Mechanized Tunnelling in Confined Urban Area Using the Example of Grand Paris Express	Germany	9
4	12	Masayuki Matsuura, Jun Sugiyama, Takumi Nirei and Toshiyuki Suenaga	Verification and Proposal of the Segment Design Method, Considering Construction Loads on Shield Curved Alignment Portions at Great Depths and Under High Water Pressure	Japan	5
5	13	Shijie Liu and David Oliveira	Design of Large Span and Shallow Ramp Tunnels	Australia	5
6	14	Yoshikatsu Maeda, Tetsuo Ito, Shinobu Kaise, Yuuki Murata and Hiroshi Yagi	Investigation on Middle Flow Tunnel Lining Concrete Using Thickener-containing Fluidizing Agent	Japan	2
7	15	Yuki Murata, Tetsuo Ito, Shinobu Kaise, Hitoshi Katoh and Hiroyuki Oneyama	Comparison of Interior Structures in Expressway Tunnels	Japan	12
8	19	Markus Obel and Peter Mark	Minimization of Compensation Measures Based on a Probabilistic Risk Simulation Concept	Germany	6
9	22	Koichiro Mizuno, Minoru Komiyama, Syoichi Asada, Takeru Kubohara and Masahiko Tomori	Investigations into Heaving of Railway Roadbed in Mountain Tunnels and Effect of Countermeasure Work	Japan	12
10	25	Alessandro Rama, Matteo Ceccarelli, Matteo Iacrossi and Rob Harding	Influence of Radial Joints in Segmental Lining 3D Modelling	United Kingdom	5
11	28	Al Adzam Shah Bin Azman, Dohta Awaji, Hidesato Kojima and Ryuu Hemmi	Characteristics and Comparison of Various Seismic Sources for Tunnel Seismic Prediction Method	Japan	10
12	32	Benno Ring, Anja Berger, Korbinian Witzlinger and I. Garcia	Segmental Lining Design for Long TBM Tunnels in Hard Rock - Case Study Follo Line Tunnels	Germany	5
13	35	Mohd Yusri Bin Mustafha, Ray Mun Chin, Reynaldo Lamson, Hazwan Arif Bin Hamzah and Logesan Ranjeevan	Innovations in the Use of Fibre Reinforced Precast Segmental Tunnel Linings in Klang Valley Mass Rapid Transit Project	Malaysia	2
14	36	John Lim Ji Xiong, Sam Liew Kit Shen, Russell Jon Batty and Justin Chin Jing Ho	The Pursuit of an Autonomous Tunnel Boring Machine	Malaysia	1
15	38	Shu Fan Chau, Chor Kin Tsang and Jessica Sun	An Overview of TBM Tunnels in Hong Kong	Hong Kong SAR, China/New Zealand/Australia	9
16	48	Myung Kyu Song, Dae Young Kim and Ebrahim Farrokh	Application of Design and Construction Management System for Underground Cavern	South Korea	6
17	50	Wolfgang Seidl, Frank Clement, Klaus Bonin and Christine K�ster	Impact of Cyclic Shear Stress on the Durability of a Composite Shell Lining	Belgium	2
18	55	Dean Brox	TBM Risk Assessment and Selection for Hydropower Tunnels	Canada	6
19	57	Arnold Dix	Public Funds and Accountability - Keep Mega Underground Infrastructure Projects Free from Corruption	Australia	16
20	59	Benoit De Rivaz	Full-scale Tests on Precast Tunnel Segments with Newly High Performance Steel Fibre	Belgium	2
21	60	Klaus Rieker	The West Link Project in Gothenburg, Korsv�gen Section	Germany	8
22	61	Daisuke Kobayashi and Masahiro Nakata	Importance of Identifying Defects Which Occur during Tunnel Construction for Maintenance, and Examples of Such Defects	Japan	12
23	62	Yuqian Zhou, Jinrong Yuan, Sowhon Leong and Xiaochun Xiao	Impact and Back Analysis of Deep Excavation on Existing MRT Line under Complex Surrounding Conditions	China/Singapore	5
24	63	Yuqian Zhou, Jinrong Yuan, Tingxuan Du and Xiaochun Xiao	Construction Simulation of Large Diameter TBM Tunnelling in a Sharp Curve Alignment in Soft Clay Using 3D Numerical Analysis	China/Singapore	5
25	65	Hongkok Wang, Cheemin Khoo and Teikaun Ooi	Mega Transport Projects and Politics: East Coast Rail Link, Malaysia	Malaysia	16
26	72	Max Gabriel T. Barbosa, Andr� P. Assis, Lucas O. Mendes and Max Valerio R. Barbosa	Underground Space Use – Case Study of Parking Garages in Brasilia	Brazil	3
27	73	Kokichi Kabuki, Mitsuo Takeda and Yukinori Koyama	A STUDY OF EXCAVATION PERFORMANCE OF DONUT-SHAPED TUNNEL BORING MACHINE BY EXCAVATION TESTS ON HIGH STRENGTH MORTAR SPECIMENS	Japan	9
28	78	Marco Bettelini, Alberto Arigoni and Catalin Boroianu	Fire Safety Strategy in Metro Projects – The Case of the "Metro Bucharest Line 4 Extension" Project	Switzerland	13
29	79	Ivan Haryono, Phil Woodmansey and Szymon Kowalczyk	Support Design for the Largest Cavern in Hong Kong and Thoughts on Improved Design and Construction Approaches for Future Large Caverns	Hong Kong SAR, China	5
30	81	Andrew Wilson	Effectiveness of Early Contractor Involvement (ECI) in Procurement of Underground Works Projects	Australia	6
31	83	Hiroki Nitta, Tsutomu Otsuka, Shinji Konishi, Takeshi Seto, Kohei Koshiba, Yuto Aso, Kiwamu Tsuno, Satoshi Tsuchiya and Koichi Maekawa	Investigation of the Seismic Performance of the Tunnel Sections with Non-Uniform Heights	Japan	5
32	84	Ali Aslanbas and Nuh Bilgin	Excavating a Metro Tunnel under a Lake with an EPB TBM Used for Istanbul 3th Airport	Turkey	9
33	85	Ali Aslanbas and Nuh Bilgin	Excavating Metro Tunnels with an EPB TBM under Risk of Methane Explosion	Turkey	6
34	86	Shu Fan Chau, Roque Alea and Mark Stocks	Earthquake Impacts to A Tunnel at Fault Zone and Its Repair	New Zealand	12
35	88	Sinan Acun and Nuh Bilgin	The Effect of Rock Weathering on the Performance of an EPB TBM in a Complex Geology in Istanbul	Turkey	9
36	90	Ulas Erboylu, Sinan Acun, Turker Senyurt and Dogancan Bayram	TBM Hyperbaric Intervention Beneath a Highway in New Istanbul Airport Metro Project	Turkey	9
37	93	Mark Trim, Tim Nash, Matt Lennon and Tim Brown	Observational Approach to Water Resistant Lining for a Major Urban Road Tunnel	Australia	2

WTC2020 TECHNICAL PAPER

No.	Submission No.	Authors	Title	Country	Topic
38	94	Ivan S. Haryono, J.N. Shirlaw, T.O. Henderson, F. Dudouit and D. Salisbury	TBM Cutting Performance in Hard and Abrasive Granite in Hong Kong	Hong Kong SAR, China	9
39	97	Keisuke Okanoya, Yasushi Arai, Tsutomu Otsuka, Tadashi Nishimura and Shinichi Watanabe	The Project which Uses an Innovative Construction Method to Expand an Operating Subway Tunnel Built by the Caisson Method under the Soft Ground	Japan	1
40	98	E. Nye, Peter Prince and Sam Lackey	Sydney Heads Rail Tunnel - A Treasure Trove of Planning Opportunities	Australia	15
41	101	Aydin Shaterpour-Mamaghani, Hanifi Copur, Deniz Tumac, Cemal Balci, Ergun Altintas and Tayfun Erdogan	Performance of Raise Boring Machine (RBM) in Low to Moderately Hard Hornfels Rocks: A Case Study of Efemcukuru Gold Mine in Turkey	Turkey	9
42	102	Alexandre R.A. Gomes	Considerations on the Practical Development of the Geotechnical Baseline Report (GBR) for the FIDIC Emerald Book and Similar Contract Forms	Australia	16
43	103	Sabrina Kost and Sang Chun	Tunnel Shotcrete Linings – Recent Experiences from Design and Certification of Tunnels in Sydney, Australia	Australia	8
44	105	Oguz Tengilmoglu, Ugurhan Akyuz, Erhan Talu and Selcuk Mert	A Comparative Experimental Study on Precast Tunnel Segments	Turkey	2
45	106	Mutlu Demir, Ugurhan Akyuz and Gokhan Erkus	A Method for the Design of FRC Tunnel Linings Reinforced with GFRP Bars	Turkey	2
