_____

Any tunnel engineer under the age of 35 is very welcome to apply, provided that she/he is also a member of one of the National Associations, recognized as Member Nations within the ITA-AITES organization. The Steering Board is looking to involve ambitious and enthusiastic young tunnelers from around the globe to be an active part of the organization, on condition that they are:

- Enthusiastic about Tunnelling, in all its forms and technical/business aspects.
- Connected with the younger generation to encourage them getting involved.
- Committed in terms of time to meet with the rest of the board and work on specific tasks.
- Eager to be involved and help shape the future of Young Tunnellers in the ITA-AITES.
- Walk up nominees at the WTC Young Members General Meeting will also be accepted, even if they have not previously responded to the call for nominations.

Attendance at the WTC is not required from candidates, however the nominees are encouraged to present themselves in the ITA-YM General Meeting either personally or via video-message to enforce their candidacy. Candidates can also step up at the General Meeting on the day. However, all candidates are strongly suggested to send their résumé and this form to itaym@ita-aites.org by **end of April 2020**, to have sufficient time for the board to review their application and circulate information timely to the Member Nations' young member representatives.
